OAI, INC.
HAZARDOUS WASTE WORKER TRAINING

Consistent with OSHA regulations 29 CFR 1910.10, OAI’s Hazardous Waste Worker Training Program (HWWTP) offers various technical and awareness courses to emergency responders, medical first receivers, and employees exposed to workplace hazards.

Since its inception in 1995, the long-term objective of OAI’s HWWTP is to teach workers how to avoid health risks and job-related harm by providing them with the requisite knowledge and training on how to best protect themselves, their communities and the environment from hazardous exposures.

This program is funded by the National Institute of Environmental Health Sciences and courses are conducted throughout the United States - with key training activities and partnerships in Illinois, Kentucky, Louisiana, Minnesota, Missouri and the Gulf South.
